Introduction

“

In the rapidly evolving landscape of cryptocurrency, user engagement and community building are paramount. Blockboost aims to distinguish itself from traditional tokens by integrating a robust reward mechanism that incentivizes participation and promotes a vibrant ecosystem.

Identifying and choosing a high-potential attractive project in this era is a major challenge. Many investors, especially small investors, don't possess the knowledge, expertise, and vision to unveil the true potential behind new startups. Because of these limitations, they tend to overlook bright projects that have the potential to become game-changers in the future.

Furthermore, many startups that have great potential for future growth fail due to lack of capital, the ability to raise funds or just not enough market confidence behind their great startup ideas.

That's when an investor needs \$BBT on their side! \$BBT will be a major player in Cryptocurrency capital investments. It is an innovative AI-driven token that will revolutionize the cryptocurrency industry.

The Blockboost Ecosystem is a community of competent investors and entrepreneurs who specialize in leading smart and creative crypto projects to success, with ease and efficiency. BBT will provide direct liquidity to great digital assets that meet its investment criteria and most importantly - are game changers.

Blockboost token is an ERC-20 token built on the Ethereum Blockchain. The Ethereum blockchain is powered by its native cryptocurrency – ether (ETH) – and enables developers to create new types of ETH-based tokens that power dApps through the use of smart contracts. The most common ETH-based cryptocurrencies are built on the ERC-20 token standard.

Blockboost Vision

The Blockboost vision is to be the premier and most trustworthy cryptocurrency, by providing holders of \$BBT with a constant stream of perpetually free new crypto assets and, by doing so, delivering superior returns to the stakeholders.

BBT Vision is Encapsulated With Three Main Components:

Our Mission

At Blockboost, our mission is to empower individuals and communities through innovative cryptocurrency solutions that foster engagement, growth, and financial opportunity. We believe that the future of finance should be accessible, rewarding, and community-driven.

❯ Empowering Users

We strive to create a platform where every participant feels valued and has the tools to succeed. By integrating unique reward mechanisms, such as our daily incentives and referral programs, we aim to incentivize active participation and long-term commitment. Our vision is to transform how people view and interact with cryptocurrency, turning passive holders into active community members.

❯ Innovating for the Future

As pioneers in the crypto space, we are committed to continuous innovation. We understand the importance of adapting to market trends and user needs. Our team is dedicated to developing features that enhance user experience, increase transparency, and ensure security within the Blockboost platform.

❯ Sustainability and Growth

We envision a sustainable model that not only benefits individual users but also contributes to the broader cryptocurrency ecosystem. By encouraging responsible investment and long-term holding, we aim to create a lasting impact that drives growth and stability in the crypto market.

Blockboost Ecosystem

At Blockboost, our ecosystem is designed to create a seamless, engaging experience for all participants. Here's how it operates:

❯ **Launchpad**

Our Launchpad provides exclusive access to promising crypto startups before they hit the mainstream. Discover innovative projects with the potential to revolutionize the industry. Use your \$BBT tokens to participate in token sales and gain early access to exciting new opportunities.

❯ **Bridge and Swap AI**

Our advanced Bridge and Swap AI platform allows you to effortlessly move assets between different blockchains. Benefit from competitive rates, fast transaction times, and a user-friendly interface.

❯ **Earning System**

Our Earning System offers a variety of opportunities to generate passive income, including staking, airdrops, and other rewarding mechanisms. Maximize your investment potential and enjoy the benefits of holding \$BBT tokens.

❯ **Vault**

Protect your crypto investments with our state-of-the-art Vault. Benefit from advanced security features, cold storage options, and easy-to-use interface. Keep your digital assets safe and accessible.

Holding and Staking with Blockboost

At Blockboost, we provide unique opportunities for users to maximize their investment through holding and staking. Whether you're looking to simply hold your tokens for potential appreciation or earn additional rewards through staking, our platform offers flexible options to suit your needs.

Holding \$BBT Tokens

Holding Blockboost tokens is not just a passive investment; it's a strategic decision that offers multiple benefits:

- **Daily Rewards:** As a holder, you are eligible for daily rewards, allowing you to earn while you wait. This incentivizes long-term investment and encourages a stable token economy.
- **Value Appreciation:** By holding your tokens, you participate in the potential growth of the Blockboost ecosystem. As our community expands and demand increases, the value of your holdings may appreciate over time.

How to Hold?

To hold Blockboost tokens, simply purchase them through our supported exchanges or our platform. Store your tokens securely in a compatible wallet, and start enjoying the benefits of being a valued member of our community.

Staking \$BBT Tokens

Staking involves locking your tokens in the Blockboost platform to support network operations, such as securing transactions and validating data. In return for your contribution, you earn additional rewards and the following benefits:

- **Increased Rewards:** Staking allows you to earn higher rewards compared to just holding. The more you stake, the more you can earn.
- **Support the Ecosystem:** By staking your tokens, you play a vital role in the stability and security of the Blockboost network, helping to maintain its integrity and efficiency.
- **Flexible Terms:** We offer various staking options, allowing you to choose the term that best fits your investment strategy and risk tolerance.

How to Stake?

Choose the number of tokens you want to stake and select a package. Once you confirm your staking decision, your tokens will be locked, and you'll begin earning rewards based on your staking commitment.

BlockBoost Launchpad

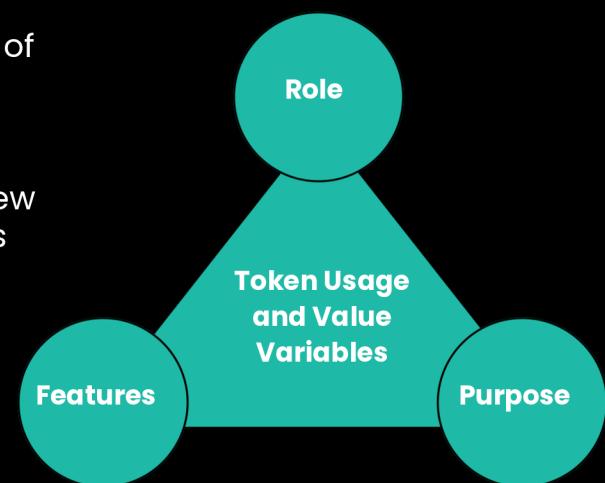

BlockBoost Launchpad is a Multi blockchain-supported platform that fills the gap between the investors-fundraiser and the decentralized cryptocurrency protocol. We aim to connect the world for borderless transactions to fund a new project while allowing the investor to research a new coin. We provide an opportunity for investors to better educate themselves through more information globally, with less uncertainty, using the Binance-compliant platform. We can eliminate manual errors and ensure stability, clarity, and immutability during recording by leveraging state of the art Binance-based smart contract technology.

BlockBoost helps new projects attract the community, by allowing them to list their new coin, before launch, on our innovative BlockBoost Launch directory which contains all the details related to the coin/token along with their official website, and the link to their telegram is hyperlinked on website. BlockBoost Launchpad is a multi-blockchain-supported launchpad that helps in raising capital from investors. BlockBoost launchpad supports BNB, Ethereum and Matic supported coin/tokens.

USAGE AND VALUE

The key objective of a crypto currency is to create or produce value. To make that happen, there needs to be a specific linkage between user actions and the resulting positive effects of those actions on the overall value to the organization. According to William Mougayar: "Usage without value linkage is a waste and will result in a failure backlash. A new DAO (distributed autonomous organization) is like a startup. It requires a product/market fit, business model realization and a lot of users/customers."

WHY BUY \$BBT?

Invest in New Crypto Projects

By buying \$BBT token the investor provides liquidity to the project, allowing it to professionally invest in new crypto startups with a high success rate, which will ultimately lead to appreciation in \$BBTvalue.

Improve Crypto Investment Option

Since \$BBT will perform deep and thorough due diligence prior to investing, it ensures that the \$BBTcommunity avoids falling into the traps set by scammers. By doing this, the whole community will improve the image of crypto investing.

Be part of the Community

Once an investor buys and holds Blockboost, they will automatically be part of the \$BBT community. This grants the investor the right to:

- Vote on future projects Present
- new projects Receive free
- token rewards

Exchangeability

\$BBT will be listed on centralized crypto currency exchanges. This will guarantee it can be exchanged for other cryptocurrencies listed on those exchanges. In addition, the token is listed in DeFi exchanges (decentralized exchanges).

Exclusive Benefits & Rewards Of Buying \$BBT In The Presale

➤ **Presale Referral Rewards**

Join our presale referral program and earn \$BBT tokens for every successful referral. The more friends you invite, the more you earn. Share your unique referral link with your friends and you both can earn 5% bonus during presale.

➤ **Trading Referral Rewards**

After launch, earn 2% trading rewards for trading activities on our platform. The more friends you refer, the more you earn. Share your unique referral link and start earning today.

➤ **Holding Rewards**

Our holding rewards program is designed to incentivize long-term investment and support the growth of our ecosystem. Hold \$BBT tokens in your wallet and earn rewards. The longer you hold, the more you earn.

➤ **Staking Rewards**

Stake your \$BBT tokens and earn additional \$BBT as a reward. Staking helps to secure the network and contributes to the overall health of our ecosystem. The more you stake, the more you earn.

➤ **Vault Staking Rewards**

Stake your \$BBT tokens in our secure Vault and earn rewards. Our Vault staking program offers competitive rates and additional benefits. Enjoy the peace of mind that comes with knowing your assets are safe while earning rewards.

➤ **Multiple Token Reward System**

Allowing the user to select a specific token to be rewarded with. These currencies can be selected from our dashboard selections: ETH, ADA, DOGE, SHIBA, DOT, BNB, and BUSD. The multiple-token reward system makes us unique, and we will have a buy-and-sell tax included in every \$BBT token transaction, resulting in 2% of all \$BBT tokens being distributed to token holders.

Unique Referral System

Referrals can easily link to our website anytime without having to log in or register with our site using the fully DeFi-based referral system we implemented. There is a referral link for every user that is unique and allows them to share their referral link with friends, family members, and community members to earn a passive income.

Exactly this system works as below:

BUYS (2%)

- [if referral accepted]
- 2% Referral (1% to primary, +1% to pay train [0.5%/0.5%]. If no train, send
- to contract for earn rewards)

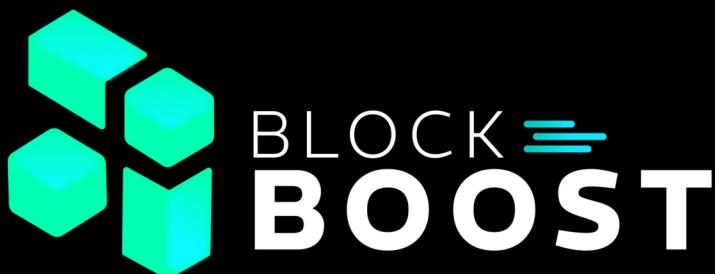

SELLS (2%)

- 2% Passive Earn Rewards (1% to primary, +1% to pay train [0.5%/0.5%]. If no train, send to contract for earn rewards)

NFT MARKETPLACE

BlockBoost Non-fungible tokens (NFTs) are one-of-a-kind, non-transferable assets created on the blockchain. These tokens may be connected to anything in the BlockBoost game. NFTs' basic characteristics provide them a distinct value and categorically distinguish them from other forms of assets. These characteristics include verifiably uniqueness and indivisibility. Because the underlying code is transparent, the scarcity and ownership of any given token can be determined without the use of a trusted middleman.

The rise of NFTs, in our opinion, is part of a larger paradigm shift away from centralized to decentralized systems. This platform is now allowing makers of digital collectibles to experiment with new revenue strategies. Each BlockBoost underlying token has a genome that specifies its look, characteristics, and origin. BlockBoost cannot be duplicated or distributed without the consent of the user.

HOW BLOCKBOOST ECOSYSTEM IS TRANSFORMING THE NFT?

For a long time, the gaming business has struggled with concerns such as transparency, authenticity, ownership, provenance, copyright, and counterfeiting. Furthermore, the business has always been confined to the wealthy few who can afford to spend millions of dollars on a single NFT item. On the other hand, it is designed for everyone to enjoy, and it can transcend all social and economic barriers.

The above-mentioned challenges are largely eliminated with our built environment. And the gaming business has produced and successfully deployed incredible and complex works of art. We're ready for a shift in how NFT is bought, marketed, sponsored, loved, and even made.

VALUABLES OF BLOCKBOOST NFT

1-LIMITED

The shortage of NFTs adds to their appeal. NFT developers may build a limited number of non-fungible tokens to keep the value of the NFTs up.

2-INDIVISIBLE

The majority of NFTs are indestructible into smaller units. You will not be able to purchase a digital item until you pay the full fee.

3-UNIQUE

NFT is completely safe and accurate because it has a robust information tab. This feature makes the NFT more unique and potent.

BENEFITS OF BLOCKBOOST NON-FUNGIBLE TOKEN (NFT)

Decentralized exchanges have been transformed by non-fungible tokens. There are some of the advantageous benefits of this cryptocurrency;

1-Easily Transferable:

The transfers of NFTs are centered on their uniqueness and indivisibility. You can transfer, sell, or auction your NFTs in the BLOCKBOOST NFT Marketplace with one click.

2-Trustworthy:

BLOCKBOOST NFTs are based on blockchain technologies. Consequently, you must be confident that your NFT is right, as counterfeiting a decentralized and permanent record is difficult.

GLOBAL CRYPTO MARKETSIZE

Revenue in the Cryptocurrencies market is projected to reach US\$40.7bn in 2023. Revenue is expected to show an annual growth rate (CAGR 2023-2028) of 11.98% resulting in a projected total amount of US\$71.7bn by 2028. The average revenue per user in the Cryptocurrencies market amounts to US\$60.8 in 2023. From a global comparison perspective it is shown that the highest revenue is reached in the United States (US\$17,960.00m in 2023). In the Cryptocurrencies market, the number of users is expected to amount to 992.50m users by 2028. User penetration will be 8.73% in 2023 and is expected to hit 12.39% by 2028.
